

International Drum Horse Association

~Ride To The Beat Of A Different Drum~

Height Certification for Drum Horses

Directions: Drums that reach 16hh will be classified as "Premium". Most Drums reach their full height by 7 years of age but can be measured at any time before that. Measurements **must** be taken by and signed by a certified veterinarian or a representative appointed by the IDHA. You must send in the original registration certificate along with payment of \$20. Registration Certificates will be stamped "Premium".

Registered name of Horse to be measured: _____

Registration number as recorded with the IDHA: _____ Date of birth: _____

Owner's information

Name: _____ Telephone: _____ Email: _____

Address: _____

City: _____ State: _____ Post Code: _____ Country: _____

Date Measured: (mm/dd/yyyy) _____ **Shod?** _____ (yes or no)

Height in hands at withers: _____

If wearing shoes: Thickness of shoe at heel: _____ **Thickness of shoe at toe:** _____

(if the horse is wearing shoes, the measurement will be determined on an unshod basis, meaning it will be the height in hands at the withers minus the thickness of the shoe at the heel).

I hereby certify that the horse described above was measured and the height is as noted.
